

FEATURED UNIT: Corrosion Resistant MAU w/ Wrap Around Heat Pipe

MARKET: MILITARY

Construction:

- Indoor unit
- 0.063" Alum exterior & interior
- 2" Injected foam, thermal break panels

Other Features:

- 304 SS CW coil casing w/ epoxy coating
- Unit to be suspended from ceiling

Components:

- A. 2" MERV 8 pre filter
- B. Heat Pipe—Pre-Cool
- C. CW w/ glycol coil
- D. Heat Pipe—Re-Heat
- E. SA Direct Drive Blower
- F. High Efficiency (90%) Indirect Fired Burner

Model:	XHS-30-60-BP-CW-HW-FF	
Height:	61"	
Width:	66"	
Length:	190"	
Weight:	3,800 lbs	
Supply CFM:	4700	
Cooling Capacity:	318 MBH	
Heating Capacity:	306 MBH Input	
Heat Pipe Effectiveness	22% Pre-Cool	23% Re-Heat
